GlotPress/GlotPress May 14th Added by GitHub

I do not like the fact that issues are closed with comment "not planned"! That means in my opinion that this project is dead, which for me as an intensive user is not acceptable. It does not encourage me anymore to improve the quality of translation for WordPress.

Make WordPress

Whether you're a developer, a designer, or want to push the community forward, we're always looking for people to join us in making WordPress even better.

From core development and design to support and documentation, every contributor team has a blog, with general news, upcoming events, and opportunities to get started.

Teams

<> Core

The core team makes WordPress. Whether you're a seasoned PHP, HTML, JavaScript or CSS developer or are just learning to code, we'd love to have you on board. You can write code, fix bugs, debate decisions, and help with development.

Next meeting: **Core Privacy office-hour** [\(+9 more\)](#)
martes, 22:00 CEST (1 day from now) accessible via [#core-privacy](#) on Slack

🎨 Design

The design group is focused on the designing and developing the user interface. It's a home for designers and UXers alike. There are regular discussions about mockups, design, and user testing.

📱 Mobile

The mobile team builds the iOS and Android apps. Lend them your Kotlin, Swift, or React Native skills. The team also needs designers, UX experts, and testers to give users a smooth experience on every device.

★ Accessibility

The a11y group provides accessibility expertise across the project. They make sure that WordPress core and all of WordPress'

Welcome to the official blog for the WordPress Support team.

Need help with a WordPress issue? You can find help with your WordPress problem by posting in the [support forums](#) or asking on the [#wordpress](#) IRC channel.

Want to get involved?

Answering a question in the support forums or on IRC is one of the easiest ways to get started. Everyone knows the answer to something!

We have a [detailed handbook](#) to help contributors learn how to work with the forums and IRC.

Weekly Meetings

As well as discussing support issues here on the blog, we use [Slack](#) for group communication.

Our meetings are held fortnightly on Thursday at 17:00 UTC, in [#forums](#) on Slack, with agendas published below. [View upcoming meetings.](#)

Note: No meetings are currently scheduled.

Support Handbook

Welcome to the WordPress Support Handbook.

The WordPress Support Handbook is the number one destination for tips, tricks, and advice to assist you in giving the best WordPress support possible.

This handbook is a guide put together by the community and represents over ten years of WordPress support experience. Please feel free to start with the selections to the left, and we hope you enjoy making use of this as much as we enjoyed writing it!

Need help with a WordPress issue?

You can find help with your WordPress problem by posting in the [support forums](#) or asking [in IRC](#).

PHP Parse error: syntax error, unexpected '?', expecting variable (T_VARIABLE)

SRD75 (@srd75)
4 hours, 52 minutes ago

Hi

Our site has a white screen of death.

error_log has:

```
PHP Parse error: syntax error, unexpected '?', expecting variable (T_VARIABLE) in /public_html/wp-
```

I've uploaded WP 7.0 and replaced wp-admin, wp-includes, and all files in the web root, but the issue remains.

I've tried different versions of PHP, I've tried moving all plugins to temp folders, I've replaced the Twenty Seventeen theme, the issue remains.

This error goes back to 15th of June 2026.

Help appreciated.

Hola @ivancrival la situación, es más común de lo que parece. Lo primero que necesitas es recuperar el acceso a tu sitio. Aquí algunos pasos según tu caso:

Si tienes acceso al hosting: Puedes ingresar al panel de control (cPanel, Plesk u otro) y desde ahí restablecer la contraseña de WordPress directamente en la base de datos, o crear un nuevo usuario administrador.

No me reconoce la cache opcode

 **jfernandorey** (@jfernandorey)
hace 1 semana, 3 días

Buenas.

Desde la última actualización de wordpress, en la herramienta «salud del sitio» me sale un mensaje diciendo que la caché opcode está desactivada. No es cierto, la tengo activada y, según el archivo info.php, «up and running»

¿Alguien puede ayudarme a hacer algo para que wordpress reconozca como activada la caché opcode?

Gracias

ARE YOU IN THE RIGHT PLACE?

This is not for support. Please try the [support forums](#).

Do not report potential security vulnerabilities here. See the [Security FAQ](#) and visit the [WordPress HackerOne program](#).

This form is for suggesting enhancements and reporting bugs in WordPress. Here are some questions and tips to help you write a great bug report:

- Are you using either the latest version of WordPress, or the latest development version? If not, please update first.
- What steps should be taken to consistently reproduce the problem?
- Does the problem occur even when you deactivate all plugins and use the default theme?
- In case it's relevant to the ticket, what is the expected output or result? What did you see instead?
- Please provide any additional information that you think we'd find useful. (OS and browser for UI defects, server environment for crashes, etc.)
- Please create Gutenberg issues on the project's GitHub [issue tracker](#).

You can [search for existing tickets here](#). For more help, please see the [contributor handbook](#).

Summary:

Make WordPress Core

New Ticket

Search

[New Custom Query](#)

{44} Good First Bugs (105 matches)

Update Max items per page 100

These tickets have been marked as being a "good first bug" for new contributors.

Create a new ticket

First bugs aren't necessarily "easy," though some are. These bugs are meant to be well-contained. They are designed to help get you familiar with WordPress core code, processes, and contributing, not send you down a rabbit hole for days on end. Whoever marked the ticket likely explained in the ticket why they did so, giving you a good starting point from which to work.

The person who marked the ticket as a "good first bug" — as well as other members of the community — will help you through this ticket by providing feedback along the way. Start by getting a handle on the problem, verifying that you can reproduce it, drawing up a plan of attack, and then creating a patch.

The [Core Contributor Handbook](#) should have some good reference materials for you, including [an overview of the codebase](#), [coding standards](#), [how we use our bug tracker](#), and various tutorials and guides like setting up a development environment and creating patches.

If you're not a contributor who is just starting out, please find one of the hundreds of other bugs to patch!

If this report is running low or nothing catches your eye, try [this report](#) of tickets that need a patch. If you like unit tests, you can check out how automated testing is set up [in the handbook](#), then browse the tickets that [need unit tests](#). Or, if you want to contribute by testing patches, [here are some patches](#) that have been marked as specifically needing testing.

Results (1 - 100 of 105)

Unclaimed — jump right in! (64 matches)

Ticket	Summary	Component	Milestone	Type	Modified	Workflow
#64900	Improve 'browserslist:update' Grunt task	Build/Test Tools	7.0.1	defect (bug)	06/22/2026	has-patch
#64298	Move the 'failed-workflow' job logic into a reusable workflow	Build/Test Tools	7.1	enhancement	04/02/2026	has-patch
#50393	Run 'composer compat' as a part of 'grunt (precommit prerelease)'	Build/Test Tools	7.1	enhancement	05/27/2026	has-patch
#64567	HTML API: get_attribute_names_with_prefix() should agree with enqueued attribute updates.	HTML API	7.1	defect (bug)	06/20/2026	has-patch
#56886	Admin facing add site screen missing search engine visibility field	Networks and Sites	7.1	enhancement	06/23/2026	has-patch
#26649	escaped shortcodes should not be expanded during 'get_the_excerpt'	Shortcodes	7.1	defect (bug)	03/17/2026	has-patch

Core Contributor Handbook

Welcome to the **Core** Contributor Handbook, the place to learn how to get involved with the WordPress core development community, and start contributing to WordPress core.

Whether you are a **beta tester**, casual contributor, or serious contributor, this handbook will provide the information you need to get started.

Here you can learn about how the WordPress project is organized, communication channels, best practices, the **Trac** workflow process, and more. There are also guides to help you set up the tools you'll need to start contributing to WordPress core.

Contribute with Testing

Testing is a very important part of the release cycle. You can install the latest development version locally to test new features, and how the changes work with your site setup (theme/plugins/etc.). You can [start testing](#) as soon as a new development version is available (alpha), and continue throughout the release cycle to ensure the next version of WordPress is as **bug-free** as possible.

You don't need to know how to code or create a **patch**, just provide a [well-written bug report](#), with details of the issue and steps to reproduce. You can confirm the issue is fixed once a patch is committed and a new **bleeding edge** nightly version released.

Found a security vulnerability? WordPress believes in responsible and private disclosure. [Report it directly to our security team.](#)

Meetup Program Basics

If you're interested in learning more about attending a [meetup](#), organizing a meetup, transferring ownership of a meetup, or joining the WordPress Chapter Meetup program, you've come to the right place!

[Find your local WordPress meetup](#)

No WordPress [meetups](#) in your area? Read on to learn about organizing one!

What are Meetups?

Meetups are locally-organized groups that meet for events on a regular basis (commonly once a month) and power year-round WordPress communities. They are a vital part of the overall WordPress [open source](#) project.

These events are intended to be relaxed, open to all, and can take many formats:

- presentations/lecture series,
- hackathons,
- social gatherings,
- workshops,
- co-working,
- running a WordPress help desk,
- contributor on-site drives, and others.

Welcome!

The [WordPress Photo Directory](#) is a directory of free, publicly-contributed, CC0-licensed photographs.

The Photo Directory team moderates every photo submitted to the directory, maintains and improves the directory site itself, and provides resources and documentation to educate, encourage, and facilitate photo contributors.

If you're a new contributor, welcome! You can come chat with us in [#Photos](#) on [Slack](#).

Stay tuned as we develop our contributor handbook. If you've encountered an issue or have a suggestion for the Photo Directory, feel free to [create a ticket](#).

We encourage you to [submit](#) one or more of your best photos to our directory!

Translate WordPress People Teams Events Weekly Chats Translate Handbook

Edit | Hide welcome box

Welcome to the official blog of the translator team for the WordPress [open source](#) project. This is where we discuss all things related to translating WordPress. Follow our progress for general updates, status reports, and debates.

We'd love for you to help out!

Translate WordPress

You can help translate WordPress to your language by [logging in to the translation platform](#) with your [WordPress.org](#) account and suggesting translations ([more details](#)).

Want to help in managing and validating translations? Get in touch with the [existing language team](#) and follow the [glossaries & style guides](#) if the team has them. Also join your language team's [internal communication channels](#).

Don't see your language? You can [request support for it](#).

Weekly Meetings

We have meetings every week on [Slack in #polyglots](#) (the schedule is on the sidebar of this page). You are also welcome to ask questions on the same channel at any time!

Posting here

In order to post to this site, you will need to [log in with your wordpress.org account](#). Your first post may take a while to show up, as it is moderated. Please follow our [tag policy](#) when posting.

1 Before posting a request, please make sure you've [read our guidelines and handbook](#).

- If you're a [plugin](#) or theme author and you want to add your translators as PTEs for your project, please post a request [following these guidelines](#).
- If you're interested in internationalizing your plugin, please read the [Plugin Developer Handbook page](#).
- If you're a plugin author and have a question about your plugin's translations, please [read the FAQ page on translations](#).
- If you would like to join an existing translation team, please [read about teams](#) and [how to request](#)

How to Translate

Quick Start

Ready to get started? Here is a summary of the steps to begin translating WordPress:

1. Review your locale's [Style Guide, Glossary](#), and/or any related documentation its "Rosetta" site (localized version of [WordPress.org](#), for instance [es.wordpress.org](#) for European Spanish, or [br.wordpress.org](#) for Brazilian Portugues. You'll find a link to their site in our [list of Translation teams](#).
2. Log in to WordPress.org via [translate.wordpress.org](#).
3. Find your locale and click **Contribute Translation**.
4. Open the project you'd like to translate and begin suggesting translations.
5. When finished, contact your locale team to review in the appropriate channel, e.g. your locale team's [local Slack](#) or team blog. If you don't know how to contact your locale team, then a "PTE request" in the [Make/Polyglots blog](#) is may be your best option to contact your team.

That's it! Welcome to the Polyglots community. We're glad to have you help us make WordPress speak your language.

Acabar coa Democracia a través dun golpe brando

Isidoro García | *A contratempo*

A democracia pode erosionarse sen tanques nas rúas nin golpes militares. A combinación de presión mediática, activismo xudicial, poder económico e mobilización política emerxe como unha ameaza capaz de alterar a vontade popular e debilitar as institucións desde dentro.

[Dossier IA] Mentés sen rostro

Natalia Nogueira | *Senén Barro* | *Francisco Cortez-Lobão* | *Dossier*

A intelixencia artificial deixou de ser unha promesa futurista para converterse nunha forza que transforma a economía, a política, a ciencia e mesmo a nosa idea do humano. Quen decide como actúa? Que intereses a impulsan? Que riscos e oportunidades abre? O En Destaque deste mes explora os desafíos dunha revolución tecnolóxica que xa condiciona o noso presente.

[Alén dos espellos] Unha moza e unha pistola

Miguel Vázquez Freire | *Alén dos espellos*, *Gran angular*

Amor e violencia. Unha moza e unha pistola. O célebre aforismo de Godard serve como punto de partida para explorar os grandes motores da narrativa cinematográfica, os seus prexuízos de xénero e a persistente fascinación do público por historias que oscilan entre a paixón romántica e o conflito. Entre a Nouvelle Vague e Hollywood, o cine segue buscando a fórmula universal do relato.

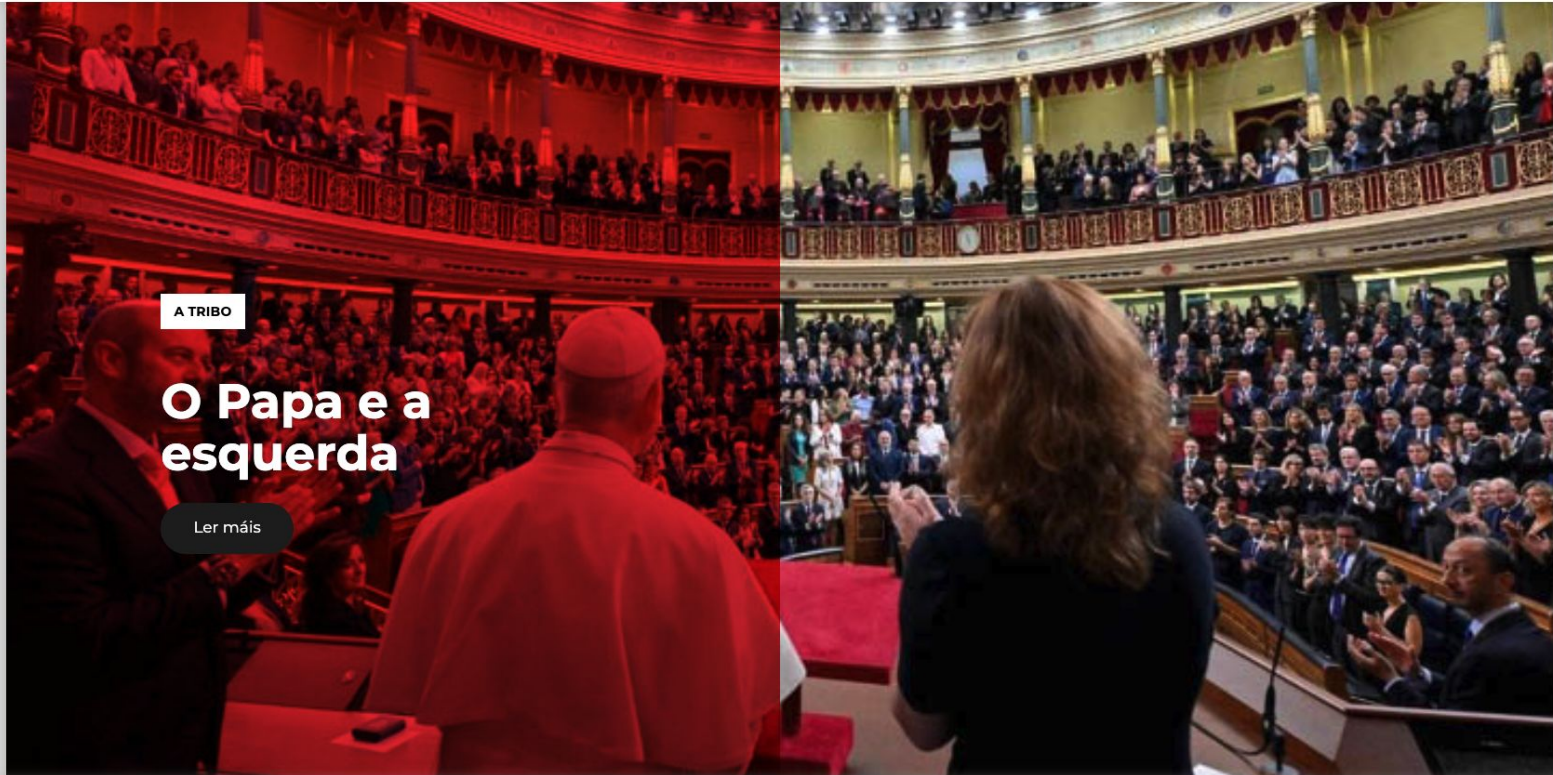

A vivenda en Galicia: o que ninguén di en voz alta

Diego Feijoo | *Activismo social*, *Gran angular*

A crise da vivenda en Galicia non persiste por falta de diagnóstico nin de solucións. Entre incentivos electorais perversos, rendibilidade turística, incapacidade administrativa e décadas de abandono da vivenda pública, o problema reside na falta de vontade para afrontar os intereses que se benefician del.

Caderno de San Xoán 2026
Ritos, ditos, lendas e tradicións da noite máis máxica de Galiza

Tratar coa
comunidade

11

Os principios

1. Asume sempre boa fe
2. O *código de conduta* é a túa rede, non a túa arma
3. Separa a persoa do comportamento
4. Privado para calmar, público para decidir
5. Valida antes de rebater
6. Pon límites sen pedir perdón

Trolls e quenturas

1. O descontento busca solución; o troll busca reacción
2. Non alimentes: resposta serena, unha vez
3. Explica sempre o «por que» dunha decisión
4. Documenta e reporta, non discutas
5. O asíncrono apaga incendios
6. Non es o soporte do mundo: cóidate

Preguntas?

A photograph of a theater or lecture hall with rows of empty red upholstered chairs with white frames. The word "Preguntas?" is overlaid in large white text at the top left. The chairs are arranged in a grid pattern, and the floor is covered with a patterned carpet. The lighting is dim, creating a quiet and somewhat somber atmosphere.
